“ Judy and I work together. We also shared a love for pets. I enjoyed Judy's company both at work and outside of work, when she worked at AWG and lived in Shawnee, KS. I had been to her and Charlie's home many times and we also enjoyed time out and about the Kansas City area for different t events or dinners. I have always missed her since she retired. I did however keep up with them and until I changed jobs to back on the MO. side after 20 years at AWG. we still visited after I got off work and drove over. I know Charlie had been active in the Shriners. They had many friends and she was a busy person and loved her flower garden as well at her home. She had beautiful taste. I am just now finding out she passed. Since I had not heard from her on FB. Her and Charlie are dancing in the heavens I am sure. God rest hon and I will be seeing you on the other side my dear friend. I hated that I never got down to see her. She talked of her home lots to me. I wish healing to her family. I knew she wanted to move back home but Charlie needed to be close to his Mother. After her passing I knew she could return to her beloved home town and family there.
